NFT Marketplace

Radis Rosbery
Saskehh Rio   0, 20ETH
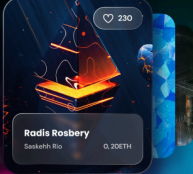

Objectives:

- Develop a user-friendly platform for creating, buying, selling, and trading NFTs.
- Facilitate secure and transparent transactions using blockchain technology.
- Foster a thriving NFT community through engaging features and functionalities.

Preliminary findings:

- Utilizing a full stack approach with Node.js, Solidity, Hardhat, Next.js, and MetaMask holds promise.
- Emphasizing security, usability, and community engagement are vital for a robust platform.
